Aristotle's *Metaphysics* claims about the law of non-contradiction some claim to be the most certain of laws

1. ontological: "It is impossible that the same thing belong and not belong to the same thing at the same time and in the same respect." (1005b19-20)

2. psychological: "No one can believe that the same thing can (at the same time) be and not be." (1005b23-24)^[21]
3. logical: "The most certain of all basic principles is that contradictory propositions are not true simultaneously." (1011b13-14)
