all ends in meaningless nonsense rubbish

All products of human [the monkey

(homo-sapiens)] thought end in

meaninglessness-even Zen nihilism

absurdism existentialism all philosophy

post-modernism Post-Postmodernism

critical theory etc mathematics science

etc

SO

Causal determinism

<https://en.wikipedia.org/wiki/Determinism>

“Causal determinism, sometimes

synonymous with [historical determinism](#)

(a sort of [path dependence](#)), is "the idea that every event is necessitated by antecedent events and conditions together with the laws of nature."

"Causal determinism has also been considered more generally as the idea that everything that happens or exists is caused by antecedent conditions"

BUT

Causal determinism

ends in nonsense contradiction

meaninglessness

Note for over 3 centuries since Newton thru to now and even the greatest mathematician of the 19th century Poincare whos work on the 3 body

problem led to chaos theory none of the greatest minds in history have seen the bleeding obvious and the question is why

It is so clear

So obvious but none of them saw it-
Causal determinism ends in nonsense
contradiction -WHYYYY???????

proof

take the 3 body problem –as a simplification of all things in the universe

But note all the universe is made up of things in interrelationships with everything else

if we take Newton's law of gravitation

$$F = G(m_1m_2)/R^2.$$

Thus when we move object A it effects the other two objects B and C

But when objects B and C
move that effects object A

So

we can say that A in effect
caused its own motion thus
we can say the antecedent cause
of A is infact just the antecedent
A itself

in other words the cause of
the cause is the cause

just nonsense
meaninglessness
note

because all things in the universe
are interrelationships with everything
else
then

from the above all things are their own
antecedent cause

just nonsense
meaninglessness

note these actions must take place instantaneously thus contradicting the theory of relativity that says that nothing can go faster than the speed of light

thus causation is both logically nonsense and invalidates relativity and with causation being meaningless nonsense

science itself must then be
meaningless nonsense

all ends in meaningless nonsense rubbish

All products of human [the monkey

(homo-sapiens)] thought end in

meaninglessness-even Zen nihilism

absurdism existentialism all philosophy

post-modernism Post-Postmodernism

critical theory etc mathematics science

etc

"[Deans] philosophy is the sickest, most paralyzing and most destructive thing that has ever originated from the brain of man."

"[Dean] lay waste to everything in its path...

[It is] a systematic work of destruction and demoralization... In the end it became nothing but an act of sacrilege
