**So lets get things clear from
the start**

some

Say homo sapiens are not monkeys
they say monkeys have tails and homo
sapiens don't

haha if you say I am an idiot

then

you also have to say the very
science/scientists I quote to support my
position are idiots

Haha

monkey homo sapiens

go look at your tail

<https://www.webmd.com/baby/what-is-a-human-tail>

Many believe that human ancestors had and used some form of a tail. Over time as a species, however, we evolved past the need for such an organ, which is why the majority of humans no longer grow them. Most humans grow a tail in the womb, which disappears by eight weeks Sometimes, however, the embryonic tail doesn't disappear and the baby is born with it. This is a true human tail

haha

you dont get it do you monkey homo sapiens

the notion of species is nonsense

as your science is nonsense

go read the definitions

and laugh at your ridiculous science
with its crap species

hahaha

by their own definitions

as shown

they are talking nonsense

that is a **FACT** based on their **OWN**
definitions

you have two options

just

yes

or

no

are the scientists/science sites lying when they give us the definitions of species below

either

yes

or

no

If they are lying

Then you go take it up with them

If they are not lying but telling the truth

Then we have science/biology ends in contradiction

so what is a species

just a definition

<https://www.nationalgeographic.org/encyclopedia/species/>

"A species is often defined as a group of organisms that can reproduce naturally with one another and create fertile offspring"

Or from your own biology site

<https://www.biologyonline.com/dictionary/species>

“One can also define species as an individual belonging to a group of organisms (or the entire group itself) having common characteristics and (usually) are capable of mating with one another to produce fertile offspring.”

but

but species hybridization contradicts

that

<https://kids.frontiersin.org/articles/10.3389/frym.2019.00113>

"When organisms from two different species mix, or breed together, it is known as hybridization"

"Fertile hybrids create a very complex problem in science, because this breaks a rule from the Biological Species Concept"

so the definition of species is

nonsense

note

when Biologist cant tell us what a species is -without contradiction

thus evolution theory ie evolving species is nonsense

So lets start

To show you monkey (homo-sapien)

How and why you are getting screwed

And why that will NEVER change

Humans are just stupid monkeys (homo sapiens)

1 example take war-present day or history

what are generals but stupid monkeys with shinny bits of metal on their chest

what are politicians but stupid monkeys homo sapiens with a nice hair cut on their monkey head and fancy cloth on its monkey body –to manipulate the other monkey (homo-sapiens)

what is war but two monkeys on different hills throwing stones at each other today the stones are now missiles

and why do they throw stones/missiles
well because the stupid monkey
generals or politicians wants power and
control over other monkeys

nothing has changed in millions of
years we are still in the jungle even if it
looks like a nice modern city

stones rocks now missiles now
international or domestic law

Now don't complain for this is just
monkey (homo-sapiens) behaviour it
cannot be any other way this behaviour
is insurmountable cannot be changed

dude you reading this you are reading
about yourself

and you are stuck with it monkey
(homo-sapiens)

you can take the monkey out of the jungle but you cant take the jungle out of the monkey

<http://gamahucherpress.yellowgum.com/wp-content/uploads/scientific-reality-is-only-the-reality-of-a-monkey.pdf>

or

<https://www.scribd.com/document/660607834/Scientific-Reality-is-Only-the-Reality-of-a-Monkey>

Now an observation

History shows that monkey (homo-sapiens)puts restraints on its populations

Either thru religious sanctions of reward ie heaven or punishment ie hell

Or by laws

These sanctions are needed in order to stop metaphorically the monkey (homo-sapiens) from eating each other

All we need to prove this is

If all laws were taken away in a modern city full of monkey (homo-sapiens) we know without saying just what would happen ie say on the roads

Religious leaders thru either intelligence or intuition knew what the that monkey (homo-sapiens) is by nature so thus instituted a moral/religious system of reward ie heaven and punishment hell to keep them from eating each other

And law makers know what the monkey (homo-sapiens) is by nature so

thus instituted a legal system of punishment jail/fines etc to keep them from eating each other

So who are these leaders

Well first off they are the psychopaths in a society

Well lets put it this way

Well first off they will look like the average monkey (homo-sapiens)

Lets put it this way

If the average monkey (homo-sapiens) wore clown costumes then the leaders let say politicians would wear clown

costumes-that is not to say they don't wear clown costumes now in contemporary society-the leaders will wear whatever gets them elected

Now with that in mind

In all systems whether aristocracy capitalist socialist communist anarchist etc

The biggest arsehole monkey (homo-sapiens) will rise to the top

If the system is based on strength ie militarist then the nastiest strong monkey(homo-sapiens) will be on top

If the system is based on intelligence ie meritocracy then the smartest monkey (homo-sapiens) will be on top

We get a look at what such a state might look like if governed by intellectuals

Not a good look

Take Plato Republic

The Philosopher/intellectual rules

[https://en.wikipedia.org/wiki/Republic_\(Plato\)](https://en.wikipedia.org/wiki/Republic_(Plato))

“ruling should be left to philosophers, who are the most just and therefore least susceptible to corruption. This "good city" is depicted as being governed by philosopher-kings;

disinterested persons who rule not for their personal enjoyment but for the good of the city-state (polis)”

BUT

Here is the down side

Not a good look

In this Republic governed by the top philosopher/intellectual no poets are allowed

<https://www.thecollector.com/plato-philosophy-republic-poetry/>

“In the Republic, **Plato argues that poets have no place in an ideal state.** They spread misinformation and corrupt the youth's minds”.

So what would a state look like if governed by say doctors lawyers physicists even historians or professors of literature or even god forbid poets

Lets have a look at the state run by the top end psychopath doctors monkey (homo-sapiens)

Well we might have a regime of 6 monthly mandatory chemotherapies to protect us from a cancer we might get in 10 years times And those that don't get the mandatory chemotherapy will be accused of not being patriotic by putting their country at risk of a failed economy due to them over burdening the health system by getting cancer

If the system is based on wealth ie capitalist then the greediest monkey (homo-sapiens) will be on top

Now note if mouse shit was the commodity of exchange then all the rich psychopath greedy top end monkey (homo-sapiens) would have their mansions palaces etc full of mouse shit and the banks vault full of mouse shit

Well lets move on

But

All systems require the top end psychopathic monkey (homo-sapiens) to have abilities in nastiest intelligence and be greedy for ie control power etc

Even aristocracies fall into this but with a bit of difference

Aristocracies where first started when lets say the nastiest more intelligent more greedy arsehole monkey (homo-sapiens) beat killed all the other WEAKER monkey (homo-sapiens) and now its descendents are the kings or queens with all the other WEAKER hanger on monkey (homo-sapiens) trying to feather their nests

NO YOU SAY A DEMOCRACY IS DIFFERENT

Haha it is the top end psychopathic monkey (homo-sapiens) that tell you what democracy is

Ast notes

<https://en.wikipedia.org/wiki/Democracy>

The 20th-century Italian thinkers [Vilfredo Pareto](#) and [Gaetano Mosca](#) (independently) argued that democracy was illusory, and served only to mask the reality of elite rule. Indeed, they argued that elite oligarchy is the unbendable law of human nature (monkey (homo-sapiens) nature), due largely to the apathy and division of the masses (as opposed to the drive, initiative and unity of the elites), and that democratic institutions would do no more than shift the exercise of power from oppression to manipulation.

So here we have some examples

Direct

Representative

Parliamentary

Presidential

Constitutional monarchy

Republic

Liberal democracy

Socialist

Anarchist

Sortition

Consociationa

Consensus democracy

On and on and on and to top that off

Among modern political theorists, there are three contending conceptions of democracy: *aggregative democracy*, *deliberative democracy*, and *radical democracy*.

Or as some say

<https://www.globaltimes.cn/page/202303/1288310.shtml>

In today's world, "democracy" has basically come to mean whatever the US government says it means

But even so however so democracy is defined by the top end psychopathic monkey (homo-sapiens) the lower level monkey (homo-sapiens) are too stupid to keep it

Why well as [Vilfredo Pareto](#) and [Gaetano Mosca](#) did say above the apathy and division of the masses

And as others say because of

Well read

Is this the reason democracy can't work? Study find humans are too dumb to pick the right person to lead us

<https://www.dailymail.co.uk/news/article-2108341/Is-reason-democracy-work-Study-humans-dumb-pick-right-person-lead-us.html>

Scientists have suggested the theory of democracy has an unfortunate flaw - that most of the public are just too stupid to pick the right candidate.

According to the theory, the democratic process relies on the assumption that a majority of citizens recognise the best political candidate, or best policy idea, when they see it.

But a growing body of research has implied that democratic elections produce mediocre leadership and policies.

Research led by Professor David Dunning, a psychologist at Cornell University, shows incompetent people are inherently unable to judge the competence of other people, or the quality of those people's ideas.

Now the top arsehole monkey (homo-sapiens) makes the laws and rewards and punishment to control exploit use etc the lower level monkey (homo-sapiens) for its gain

Thus the system is stacked against the lower level monkey (homo-sapiens)

1)

in that if the top arsehole psychopathic monkey (homo-sapiens) have power thru war the danger is that it will sacrifice all the lower monkey (homo-sapiens) to death in order to keep power

We see this in history

Just take Napoleon Alexander the great or any modern general Hitler Stalin even your own leaders

2) in that if the top arsehole psychopathic monkey (homo-sapiens) have power thru wealth ie capitalism the danger is that it will sacrifice all the lower monkey (homo-sapiens) to starvation if it makes the top end psychopathic monkey (homo-sapiens) more wealthy more rich

We see this in modern capitalist states where even though the lower monkey (homo sapiens) are getting poorer the rich wealthy monkey (homo-sapiens) who run the system for their benefit banks corporations the top 1 % etc are getting even MORE wealthy richer ie they are eating sucking the very blood out of the lower monkey (homo-sapiens) who are just milch cows peons debt slaves to the banks

NO YOU SAY WELL READ

From Oxfam

<https://www.oxfam.org.uk/media/press-releases/richest-1-grab-nearly-twice-as-much-new-wealth-as-rest-of-the-world-put-together/>

Survival of the Richest highlights how extreme wealth and extreme poverty have increased simultaneously for the first time in 25 years

At the same time, at least 1.7 billion workers now live in countries where inflation is outpacing wages, and over 820 million people - roughly one in ten people on Earth - are going hungry

“The current economic reality is an affront to basic human values. Extreme poverty is increasing for the first time in 25 years and close to a billion people are going hungry but for billionaires, every day is a bonanza.

“Multiple crises have pushed millions to the brink while our leaders fail to

grasp the nettle - governments must stop acting for the vested interests of the few.

Now don't complain for this is just monkey (homo-sapien) behaviour it cannot be any other way this behaviour is insurmountable cannot be changed

WHY you say

Well

Firstly

As seen the top asshole monkey (homo-sapiens) are sociopaths/psychopaths and the lower level money homo-sapiens are just sheeples that need an authority to tell them what to think and do

You don't believe me

Well go look at the Milgram experiment to see

https://en.wikipedia.org/wiki/Milgram_experiment

“In the Milgram experiment, **obedience was measured by the level of shock that the participant was willing to deliver.** While many of the subjects became extremely agitated, distraught, and angry at the experimenter, they nevertheless continued to follow orders all the way to the end”

Now the majority of a society is made up of these sheeple monkey (homo-sapien) Nature has made that so and those sheeple monkey (homo-sapien) can NEVER change as they don't have

the brain processing power to do so for nature has made that so-that they are hardwired to only behave that way-for the benefit/survival of society and those sheeple monkey (homo-sapien)

BUT don't be pissed of at this sheeple monkey (homo-sapien) behaviour for if the sheeple monkey (homo-sapien)

did not do what it is told to do or think then the society wont work/function if everyone questioned the authorities then nothing will happen ie we need these sheeple monkey (homo-sapien) to fight in case of attack from the other sheeple monkey (homo-sapien) from the other hill We need sheeple monkey (homo-sapien) to believe the ethos put forward by the psychopathic top end (which benefits them the most)monkey (homo-sapiens) so that they will do the

works in a society to keep it functioning
ie teacher professional etc sewer
cleaner ie such things as the work ethic
What is the work ethic ideology?

https://en.wikipedia.org/wiki/Work_ethic
[c](#)

Work ethic is a belief that work and diligence have a moral benefit and an inherent ability, virtue or value to strengthen character and individual abilities. It is a set of values centered on importance of work and manifested by determination or desire to work hard

To quote Tennyson from the 1854 poem 'The Charge of the Light Brigade'

**'Theirs not to reason why, /
Theirs but to do and die**

And thus the society survives and the lower level monkey (homo-sapiens) get to procreate and their genes survive

AND who are the authorities the sheeple follow even though they get killed eaten alive drained of their life blood well the top asshole psychopathic monkey (homo-sapiens) and why do you say I call them arseholes well as said they are sociopaths/psychopaths for these types of monkey (homo-sapiens) are the only ones that rise to the top because they are the only that can do the dirty work that the sheeple ie lower monkey (homo-sapiens) cant do ie be ruthless you see them in politics the military banks hospitals police corporations etc

No you say

Well again go read

<https://www.businessinsider.com/does-society-actually-need-psychopaths-2012-12>

Why Society Might Actually Need Psychopaths

“Dutton describes psychopaths as brilliant, calculating, often highly intelligent people, who feel no emotion and don't even understand what an emotion is or why non-psychopaths feel them.

"I think every society needs particular individuals to do its dirty work for it," Robin Dunbar, a professor of evolutionary anthropology at Oxford,”

TRY THIS

The Secret World of Psychopaths: Why Psychopaths Have Always Ruled the World and Always Will

<https://medium.com/@dan.jeffries/the-secret-world-of-psychopaths-why-psychopaths-have-always-ruled-the-world-and-always-will-ab067dc248ca>

So don't fool yourselves about the laws/morals these top arsehole psychopathic monkey (homo-sapiens) create for they make sure that though all the lower level monkey (homo-sapiens) HAVE to follow them they write the laws/constitutions in such a way that they can always keep power and with loop holes that they can get thru to be exempt them from the laws they make

Even international law is only the law made by psychopathic monkey (homo-sapiens) the powerful states to at the end of the day are weapons they use

against their enemies and from which they and their allies are exempt

No YOU SAY well read

<https://www.trtworld.com/opinion/justice-for-whom-hypocrisy-of-the-international-criminal-court-13066035>

The integrity of the ICC lies severely eroded. Instead of a global forum where the most severe crimes against the international community would be held to account, the ICC has instead entrenched the status quo world order and insulated war criminals from the most powerful nations while selectively prosecuting leaders from others.

<https://www.reuters.com/article/icc-britain-probe-closed-idINKBN28J2FF>

AMSTERDAM (Reuters) - The prosecutor of the International Criminal Court on Wednesday said she was dropping a preliminary probe into alleged war crimes by British troops in Iraq, even though she found a reasonable basis to believe they committed atrocities.

No YOU SAY well read

<https://www.theguardian.com/uk-news/2020/dec/09/icc-abandons-inquiry-into-alleged-british-war-crimes-in-iraq>

The ICC prosecutor Fatou Bensouda said there was a “reasonable basis to believe” that atrocities such as wilful killing, torture, inhuman/cruel treatment and rape may have been committed by the British armed forces. But she concluded there was no proof that UK authorities had blocked any investigations or were unwilling to pursue them.

No YOU SAY well read about the UK and USA hypocrisy on cluster bombs

<https://www.aei.org/op-eds/britains-incredible-hypocrisy-on-cluster-bombs/>

European leaders have not been shy in their criticism of the U.S. move

After all, when Ukraine seeks cluster bombs to dislodge Russian troops dug

into trenches in its own territory, it is vocal, but when the Azerbaijani dictatorship drops them on civilian villages in a dispute that Azerbaijan committed in writing to resolve diplomatically, British officials are silent.

Britain's Incredible Hypocrisy

The hypocrisy of British leaders is stunning. In 2020, [Azerbaijan used cluster munitions](#) against civilians in a war of aggression directed at the Armenian-populated enclave of Nagorno-Karabakh. The United Kingdom was largely silent. At the time, concerns about human rights took a back seat to more practical economic concerns. Azerbaijan is a partner to BP (British Petroleum now goes only by its

initials), which has large stakes in its Caspian energy resources.

NOW READ USA HYPOCRACY

<https://www.thenation.com/article/politics/cluster-bombs-ukraine-biden-congress/>

shortly after the Russian invasion of Ukraine, when reports circulated regarding the Russian use of cluster bombs, a reporter asked then–White House Press Secretary Jen Psaki about the Biden administration’s response to an action that was “potentially a war crime.”

“We have seen the reports,” replied Psaki on February 28, 2022. “If that were true, it would potentially be a war crime.

The press secretary's words have come back to haunt the Biden administration, which is now in the process of transferring stocks of this internationally banned weaponry to the Ukrainian government

In other words laws are just the stones powerful psychopathic monkey (homo-sapiens) use to control their enemies on the other hill

The modern world –all history past present and into the future- is just the jungle with very simple drives power control greed etc and all the cloths clean shaven faces all the perfumes are just window dressings covering up a very nasty stupid monkey (homo-sapiens)you can take the monkey out of the jungle but you cant take the jungle out of the monkey

And what is all this for

AGAIN very simple

Andst why doeth these monkey (homo-

Sapiens) compete with each to each

perhaps no more than to at the end to

attract some she monkey homo sapien

maiden sexy just like certain birds ie

Bower birds Peacocks

For ast Lord Byron –the great romantic

poet -didst sagely say in that glorious

Childe Harold's Pilgrimage (canto 1

1x)

“Maidens, like moths, are ever

caught by glare”

Andst what may that glare be that

attracts the she monkey homo sapien
Well wealth power strength aristocracy
titles etc anything to which the culture
she be in doth value

Andst why

Because ast a she monkey homo sapien
her task ist to breed with the best
alpha monkey homo sapiens she can
catch andst to have her bubbers in the
best monkey homo sapien nest she
cants get –love being the mechanism to
create bonding that enable the male
monkey homo sapien to hang around
long enough to bring up the bubbers
put veryyy simply

monkey homo sapiens cannot help itself
but to compete -all history shows this

if it does compete-and win

then it will survive and pass on its
genes as nature wants

if it does not compete it will die and its
genes will not be passed on and become
extinct

Now don't complain for this is just
monkey (homo-sapien) behaviour it
cannot be any other way this behaviour
is insurmountable cannot be changed

Just like a maggot cant change its
behaviour or

A vulture

Or a worm

Or weasel cant change its behaviour

dude as you are reading this you are
reading about yourself

and you are stuck with it monkey
(homo-sapien)

but now you know

How and why you are getting screwed

And you now **KNOW** why that will
always be the case as monkey (homo-
sapien) is hardwired to do so and can
NEVER change that behaviour

As a bird can only ever behave as a bird

As a worm can only ever behave as a
worm

As a snake can only ever behave as a
snake
